

What people say about Soccatoos...

"I just wanted to take the opportunity to thank the **fantastic coaches** of your program.

My son, has been attending Soccatoos programs for the last two terms this year. **I cannot praise the coaches more highly.**

My son was enrolled in another program prior to commencing with Soccatoos. Unfortunately this was not an entirely successful experience for us.

I am an Early Childhood Trained Teacher & immediately recognised the **child centred approach** taken by the Soccatoos coaches. I believe this and the **amazing patience & clear love of the children** displayed by the coaches has in not only resulted in a child who has **developed skills** that would not have otherwise been achieved, but also one happy Soccatoo!

All parents know that a happy Soccatoo means a happy Mum.

I can only thank you all most sincerely for the **extra time spent** with him on his not so happy days. Who knows you may have the next Australian Soccer star! Thank you again."

Margie, Caringbah NSW

I just want to let you know what a **wonderful programme** you run for these preschoolers.

My 4 year old son has never shown any interest in a sport - until now.

Your **rapport** with them, the **way you speak to them**, and the **way you teach them** at a **level** and in a **language** that they **understand** and have so much fun with is just outstanding.

You can see the **coaches love what they are doing** and the parents have a good laugh as well watching the coaches and the children.

Of all the local pre-schooler programmes I have taken my children to, **Soccatoos tops the lot.**

Thanks again and I look forward to starting my 3rd son in Soccatoos next year!
